

ABOUT ME

Junior Unity Developer with a strong passion for game development and continuous learning. I have built several personal projects driven by my enthusiasm for creating games and enjoy taking on new technical challenges. I value teamwork and effective collaboration to achieve shared goals.

SKILLS

Technical Skills

- Unity
- C#
- Godot
- Git & Github

Soft Skills

- Teamwork
- Problem Solving
- Fast Learner

EXPERIENCES

Game Developer Intern

Diaco

Jul 2025 - Sep 2025

Collaborated with developers and artists to design and test gameplay mechanics in Unity.

PROJECTS

Wizard's Journey

2.5D Action Platformer | Unity

Developed a 2.5D action-platformer featuring combat, enemy AI, Level Design, and boss mechanics by implementing gameplay systems in Unity using C#.

Little Raider

2.5D Action Platformer | Unity

Created a complete 2.5D platformer by designing core movement, level mechanics, and UI systems in Unity.

Turn-Based PvP Game

Android | Unity

Built a turn-based Android game by implementing combat logic, player interactions, and PVP gameplay mechanics in Unity.

Don't Eat Me

2D Platformer | Unity

Delivered a fully playable 2D platformer within a 48-hour game jam by rapidly designing and implementing gameplay mechanics in Unity.

Shadow Tale

top-down Adventure | Godot

Developed a 2D top-down adventure game within a two-week game jam by collaborating with a 4-person team and implementing gameplay systems in Godot.

Let It Be

2D Action Platformer | Godot

Built a fully playable vertical arcade game within five days by designing and implementing core gameplay mechanics in Godot.
